SUMMARY

Junior full stack developer who builds complete web applications with a FastAPI backend and a React + Tailwind CSS frontend. Delivered an end-to-end blood donation platform, from REST API design and role-based access control to a responsive UI, and sharpen debugging and problem-solving through regular data structures and algorithms practice. Looking for remote opportunities where I can contribute to real products and grow quickly.

TECHNICAL SKILLS

Backend: Python, FastAPI, REST API design

Frontend: JavaScript, React, Tailwind CSS, HTML5, CSS3, Bootstrap

Problem Solving: Debugging, data structures & algorithms, dynamic programming (LeetCode practice)

Tools: Git, GitHub, VS Code, PostgreSQL, MySQL

PROJECTS

Blood Donation System | FastAPI, React, Tailwind CSS

[blood-donation-system](#)

- Built a full stack blood donation platform end to end, with a FastAPI backend and a responsive React + Tailwind CSS frontend deployed on Netlify.
- Designed and implemented REST API endpoints for donor registration, blood requests and blood-group search, helping donors and recipients connect on one platform.
- Implemented authentication, role-based access control and input validation to protect user data and restrict actions by role.
- Connected the React interface to the API, built reusable, mobile-friendly components with Tailwind CSS, and debugged integration issues to deliver a working end-to-end flow.

Personal Portfolio Website | HTML, CSS, Bootstrap

[Mir Muktadir Ali Taseen — Portfolio](#)

- Designed and developed a responsive dark-mode portfolio with a custom navy and gold theme and sections for projects, education, experience and contact, hosted on GitHub Pages.
- Added a downloadable CV feature and a custom logo for consistent personal branding.

EDUCATION

BSc in Mathematics (Incomplete), University of Dhaka | 2017-2024

ADDITIONAL

- Regularly solving LeetCode problems to strengthen algorithmic thinking, currently focused on dynamic programming.
- Languages: Bengali – Native, English – Professional working proficiency
- Availability: Open to remote work; flexible on time zone overlap.
